OUR STORY

Everybody faced their own challenges last seasons - both professionally and personally. The positive news is that whatever is happening in the world, pot and bedding plants are considered to be essential products. It has been proven that they are important for anyone's physical and mental health. There were many obstacles, but you and your customers found new ways to meet the needs of consumers. The new buying habits of consumers create a broad playfield for our industry. Beekenkamp aims to connect and align all the values of the chain with you and your customers.
Have a look at how we have expanded our Alfresco™ hobby vegetable range, which has enough options to pick and choose from to make it fun and educational for our home gardeners. You can find the catalog on our website or request a copy from your contact person.
At Beekenkamp, our goal is to continuously innovate the genetics and improve the quality of our starting material. Take for instance our Dahlia LaBella range, where we monitor and upgrade the best performing varieties. Another example is our Petunia Tea® series, which we expand by selecting a profitable crop for you and the consumer.

Our committed Beekenkamp Team is dedicated to building and growing our business together with yours.

Während der letzten Saisons musste sich jeder ganz eigenen Herausforderungen stellen – beruflich und privat. Die positive Nachricht ist: Es hat sich gezeigt, dass – was auf der Welt auch passiert – Topf- und Beetpflanzen zu den unverzichtbaren Produkten gehören. Sie haben erwiesenermaßen einen bedeutenden Einfluss auf die körperliche und geistige Gesundheit der Menschen, die sich mit ihnen umgeben. Trotz vieler Hindernisse, haben Sie und Ihre Kunden neue Wege gefunden, die Bedürfnisse der Konsumenten zu erfüllen. Das neue Einkaufsverhalten der Konsumenten eröffnet unserer Branche ein großes Spielfeld voller Möglichkeiten.
Beekenkamp richtet seine Angebote für Sie und Ihre Kunden so aus, dass Sie alle Werte in der Absatzkette aufgreifen können.
Sehen Sie sich an, wie wir unser Alfresco™-Hobby-Gemüsesortiment erweitert haben, damit es den Heimgärtnern Spaß macht aus reichlich Möglichkeiten auszuwählen und Erfahrungen mit neuen Produkten zu sammeln. Sie finden den Katalog auf unserer Website, oder bestellen Sie ein Exemplar bei Ihrem Kundenbetreuer.
Bei Beekenkamp haben wir uns zum Ziel gesetzt, kontinuierlich die Genetik zu erneuern und die Qualität unseres Ausgangsmaterials zu verbessern. Nehmen Sie zum Beispiel unser Dahlia LaBella-Sortiment, bei dem wir die leistungsstärksten Sorten genau beobachten und weiter verbessern. Ein anderes Beispiel ist unsere Petunia Tea®-Serie, die wir ausweiten, indem wir für Sie und die Konsumenten profitable Sorte auswählen.

Unser engagiertes Beekenkamp-Team setzt alles daran, unser gemeinsames Geschäft weiter aufzubauen und auszuweiten.

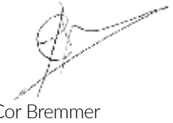

Iedereen stond de afgelopen seizoenen voor eigen uitdagingen, zowel beroepsmatig als persoonlijk. Het positieve nieuws is dat wat er ook in de wereld gebeurt, pot- en perkplanten beschouwd worden als essentiële producten. Het is bewezen dat ze belangrijk zijn voor onze lichamelijke en geestelijke gezondheid. Er waren veel obstakels, maar u en uw klanten hebben nieuwe manieren gevonden om in de behoeften van de consument te voorzien. Het nieuwe koopgedrag van consumenten creëert een breed speelveld voor onze branche.
Beekenkamp streeft ernaar om alle waarden in de keten met elkaar te verbinden en op één lijn te brengen met u en uw klanten.
Kijk hoe we ons Alfresco™ assortiment groenten voor de tuinliefhebber hebben uitgebreid. Voor de amateurtuinier is er keuze genoeg om het zelf kweken van groenten leuk en leerzaam te maken. U kunt de catalogus vinden op onze website of aanvragen bij uw contactpersoon.
Beekenkamp heeft al doel om continu de genetica te innoveren en de kwaliteit van ons uitgangsmateriaal te verbeteren. Neem bijvoorbeeld ons Dahlia LaBella-assortiment, waar we de best presterende rassen goed in de gaten houden en blijven verbeteren. Een ander voorbeeld is onze Petunia Tea®-serie, die we uitbreiden met geselecteerde rassen waarvan u en uiteindelijk de consument profijt hebben.

Het betrokken Beekenkamp-team is erop gericht onze gezamenlijke business te laten groeien.

Au cours des saisons passées, chacun de nous a fait face à ses propres défis, aussi bien personnels que professionnels. La bonne nouvelle est que peu importe ce qu'il se passe au niveau mondial, les plantes en pots et à massif sont considérées comme des produits essentiels. Leur importance pour la santé physique et mentale de chacun a été démontrée. Malgré de nombreux obstacles, vous et vos clients ont trouvé de nouvelles manières de répondre aux besoins des consommateurs. Leurs nouvelles habitudes d'achat créent un vaste terrain de jeu pour notre secteur. Beekenkamp a pour objectif de connecter et adapter toutes des valeurs de la filière pour s'aligner avec vous et vos clients.
Regardez comment nous avons élargi notre gamme de légumes pour amateurs Alfresco™, qui propose maintenant suffisamment de choix pour la rendre divertissante et éducative pour les jardiniers amateurs. Vous trouverez le catalogue sur notre site web ou bien n'hésitez pas à demander une copie à votre contact habituel.
Chez Beekenkamp, notre objectif est d'innover en permanence la génétique et d'améliorer la qualité de notre matériel de base. Prenez par exemple notre gamme de Dahlia LaBella où nous surveillons et surclassons les variétés qui ont la meilleure performance. Un autre exemple est notre série Petunia Tea®, que nous élargissons en sélectionnant une culture rentable pour vous et pour votre client.

Notre équipe Beekenkamp est dédiée à développer et soutenir notre croissance en parallèle avec la votre.

Cor Bremmer
Commercial Director

Corporate Social Responsibility

We see social responsibility as a crucial element in running our business. In addition to our care for all of our employees who work for us worldwide, as well as their families, we also ensure that the environmental impact of our activities is minimal. Beekenkamp also sets high standards for hygiene. We implement very strict hygiene measurements to prevent diseases and discourage pests. All of these efforts have resulted in gaining various certificates. Our provisions regarding working conditions, the environment and hygiene are subject to external monitoring.

Maatschappelijk Verantwoord Ondernemen

We zien sociale verantwoordelijkheid als een cruciaal element bij het runnen van ons bedrijf. Naast onze zorg voor al onze medewerkers die wereldwijd voor ons werken, en hun gezinnen, zorgen we er ook voor dat de milieu-impact van onze activiteiten minimaal is. Beekenkamp stelt ook hoge eisen aan hygiëne. We voeren zeer strenge hygiënemaatregelen uit om ziekten en ongedierte te voorkomen. Al deze inspanningen hebben geresulteerd in het behalen van verschillende certificaten. Onze bepalingen inzake arbeidsomstandigheden, milieu en hygiëne worden extern gecontroleerd.

PRODUCT MANAGEMENT

Together for the best result

Our Product Management team is testing our own genetics and breeding from partners to extend their technical knowledge for you. Improved product quality from unrooted to finished product, tolerances to pests and diseases, reducing the usage of PGR's and extending the shelf and garden life are the four main research targets. The application of modern breeding techniques is the key to success at Beekenkamp Plants today. Investments are based on a clear vision of the future needs of all the links within both contemporary ornamental horticulture production as well as in the supply chain.
Test locations in different parts of the world are very important to us, as it is Beekenkamp's goal to provide the consumer with the best product available in their climate zone. It also allows us to monitor the effects of our genetics in different growing circumstances. Beekenkamp Plants' comprehensive cultivationdatabase contains extensive information from all over the world, taking each and every growing situation into account. All this, in order to provide you with the latest advice and information. The Marketing team is lucky enough to draw inspiration from the whole chain including the consumer. If you would like any visuals or designs please contact our office. Our experience in working in partnership is what makes it successful, but it takes time to develop. It is evident that the most successful partnerships have built upon a long history of collaboration. The Marketing department, where Sales, Product Management and Breeding, come together in order to see how we can assist you in the best way.

Know that you are invited at any time to our premises in the Netherlands where you can feel free to take a look at our shelf-life testing room or trial garden. Or visit the new Beekenkamp Ispiration Center, make an appointment all year round both online and offline.

& MARKETING

Ons productmanagementteam test onze eigen genetica en teelt van partners om hun technische kennis voor u uit te breiden. Verbeterde productkwaliteit van onbeworteld tot afgewerkt product, tolerantie voor plagen en ziekten, vermindering van het gebruik van PGR's en verlenging van de houdbaarheid en de levensduur in de tuin zijn de vier belangrijkste onderzoeksdoelstellingen. De toepassing van moderne veredelingstechnieken is vandaag de dag de sleutel tot succes bij Beekenkamp Plants. Investeringen zijn gebaseerd op een duidelijke visie op de toekomstige behoeften van alle schakels binnen zowel de hedendaagse sierteeltproductie als in de toeleveringsketen.
Testlocaties in verschillende delen van de wereld zijn erg belangrijk voor ons, want het is Beekenkamp's doel om de consument het beste product te bieden dat verkrijgbaar is in hun klimaatzone. Het stelt ons ook in staat om de effecten van onze genetica in verschillende groeiomstandigheden te volgen. De uitgebreide teeltdatabase van Beekenkamp Plants bevat uitgebreide informatie van over de hele wereld, waarbij rekening wordt gehouden met elke teeltsituatie. Dit alles om u van het laatste advies en informatie te voorzien. Het marketingteam heeft het geluk zich te laten inspireren door de hele keten, inclusief de consument. Neem voor afbeeldingen of ontwerpen contact op met onze martketing afdeling. Onze ervaring met het werken in partnerschap is wat het succesvol maakt, maar het kost tijd om te ontwikkelen. Het is duidelijk dat de meest succesvolle partnerschappen zijn gebaseerd op een lange geschiedenis van samenwerking. De afdeling Marketing; waar de afdelingen Verkoop, Productontwikkeling en Veredeling samenkomen om te kijken hoe we u het beste kunnen helpen.

Weet dat u ten alle tijden welkom bent in ons pand in Nederland waar u gerust een kijkje kunt nemen in onze houdbaarheidstestruimte of showtuin.
Of bezoek het nieuwe Beekenkamp Ispiration Center, maak het hele jaar door zowel online als offline een afspraak.

Samen voor het beste resultaat

BEEKENKAMP GROUP

The Beekenkamp Group. An established presence in the world of horticulture. A family business since 1951, we now have over 2,900 employees worldwide and produce over 2 billion young plants every year, with a total greenhouse area of 90 hectares. The Beekenkamp Group combines the forces of our three businesses.
We work together for the best result.

De Beekenkamp Group. Een begrip in de tuinbouw. Een familiebedrijf pur sang, met sinds 1951 ruim 2.900 medewerkers wereldwijd, een productie van meer dan 2 miljard jonge planten per jaar en een totaal areaal aan kassen van 90 hectare. Beekenkamp Group bundelt haar krachten in drie bedrijven.
Samen gaan we voor het beste resultaat.

Peter Persoon & An Beekenkamp
CEO's of the Beekenkamp Group

Marc Driessen
Director Plants Ornamentals

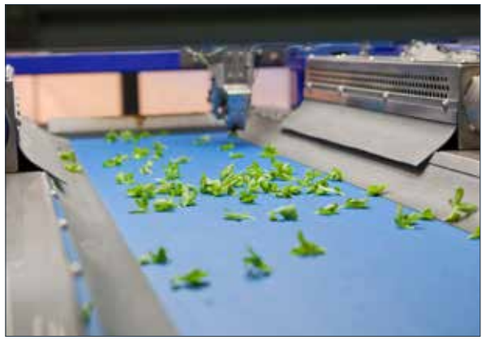

Cor Bremmer
Commercial Director Plants Ornamentals

FAMILY BUSINESS

The new corporate company film by Beekenkamp Plants Ornamentals, includes experience combined with processes. This short video, shows the audience the production processes that are required to produce a finished plant in store for the end consumer.
The story line is the LaBella® Dahlia which is being followed throughout in the video, in which you follow the processes from breeding to the finished plant going home with the end consumer. The recently introduced sustainable BKX tray and the automatization processes are also included. The video explains the processes involved at Beekenkamp Plants Ornamentals and shows the viewer how complex this actually is. An informative film that's easy watch.

In de nieuwe allesomvattende bedrijfsfilm van Beekenkamp Plants Ornamentals wordt beleving met proces gecombineerd. In deze film is te zien welke processen er nodig zijn om een stekje uit te laten groeien tot een klare plant die in de winkel gekocht kan worden.
In de film wordt een LaBella® Dahlia stekje gevolgd. Het proces wordt vanaf het kruisen tot aan het mee gaan met de eindconsument als klare plant gevolgd. De pas geïntroduceerde BKX tray, de productielocaties, de robotisering en nog een hoop andere onderdelen komen aan bod. De film geeft de kijker in het kort weer wat Beekenkamp Plants Ornamentals allemaal doet en hoe complex de branche eigenlijk is. Een informatieve film die makkelijk wegkijkt.

Alfresco

Beekenkamp Plants has a wide range of hobby vegetable plants. Grafted and not grafted. Due to our experience in the cultivation of both ornamental and vegetable plants, we are a strong player in the hobby vegetables market. All our seeds are from well-known companies with high-quality breeding and are certified. We work closely with the breeding companies to ensure you get the best plants. Alfresco literally means: “good food in the open air” and that is exactly the goal of our hobby vegetable range. Besides a great taste and a wide range of vegetables, Alfresco has more to offer. Alfresco responds to all current trends. The name “Alfresco” says it all: Fres(h). The consumer growing their own vegetables and fruit in the comfort of their own home and garden. It doesn’t get Fresher than that. It offers relaxation, contributes to a more sustainable world (less packaging, more greenery) and provides fun and education for young and old. The hobby vegetables from Beekenkamp Plants are grown according to strict hygiene rules.

Beekenkamp Plants heeft een ruim assortiment aan hobbygroenteplanten. Geënt en niet geënt. Door onze ervaring in de teelt van zowel sier- als groenteplanten zijn wij een sterke speler in de hobbygroentenmarkt. Al onze zaden zijn afkomstig van bekende bedrijven met hoogwaardige veredeling en zijn gecertificeerd. We werken nauw samen met de veredelingsbedrijven om ervoor te zorgen dat u de beste planten krijgt. Alfresco betekent letterlijk: “lekker eten in de buitenlucht” en dat is precies het doel van ons hobbygroentenassortiment. Naast een lekkere smaak en een breed assortiment aan groenten heeft Alfresco meer te bieden. Alfresco speelt in op alle huidige trends. De naam "Alfresco" zegt het al: Fres (h). De consument verbouwt zijn eigen groenten en fruit in het comfort van zijn eigen huis en tuin. Verser dan dat wordt het niet. Het biedt ontspanning, draagt bij aan een duurzamere wereld (minder verpakkingen, meer groen) en zorgt voor plezier en educatie voor jong en oud. De hobbygroenten van Beekenkamp Plants worden geteeld volgens strikte hygiëneregels.

THE PLANT

Campala is the brand name for a range of different Campanula varieties. The Campala fits into any living room, patio or garden, is easy to combine with other plants, shows excellent results in the shelf life tests and is perfect for the gift market.

The Campala is available in different pot sizes and is very suitable for running large retail promotions.

FLOWERING TIME

The Campala can be offered as a houseplant early in the season. With its white and deep blue colours is a prelude to the coming spring.

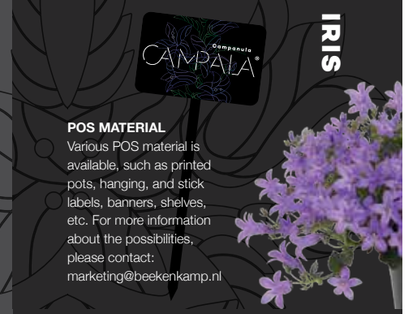

The Campala is very suitable as an outdoor plant from May to September. Due to its vibrant colour this strong plant attracts the end consumer and bees love the Campala too!
