SAKATA PANSIES & VIOLA'S

Huge flowers? Large flowers? Medium sized?

Clear faced? Blotched? Picotee? Uniqueness? Special colour mixes?

For landscaping? For patio? For hanging baskets? Heat tolerant for late Summer plantings?

For Autumn plantings? For Spring plantings?

Sakata, the worlds first breeder of FI Pansy hybrid, offers all this and more in our complete assortment of Viola wittrockiana and cornuta series. Since the introduction of the first FI Pansy way back in 1970, Sakata's commitment to the creation of innovative new Pansies has been unrelenting. Recent developments include the Premier FI series an 'all-round' large flowered pansy, suitable for Autumn, Winter and Spring cultivation which can be cultivated in pack and pot. The addition of Premier FI to Sakata's tried-and-trusted series Dynamite and Power, means that Sakata now offers a comprehensive year-round programme for Pansy production in a wide range of climates. Add to this the Grandissimo series, a giant-flowered, heat tolerant Viola cornuta series that is as versatile as it is eye-catching, and Sakata truly offers the solution for all your Pansy and Viola needs and inspiration for every season. The company that once changed the face of the Pansy Industry continues to lead the way in innovative breeding and development.

The next big thing in Viola! Grandissimo is the perfect start to the viola season, even if the warmth of late Summer is still in the air. Easy-to-grow, easy to sell and a great performer for the consumer, Grandissimo is a welcome addition to the late Summer and early Autumn market.

- Heat tolerant, giant flowered Viola
- Fills the pot easily, even under heat stress where standard varieties suffer
- Perfect to programme together with Power
- Autumn performer – great choice to start the season
- Larger flowers than standard Viola = lots more colour!
- Ideal for landscape – an explosion of colour and an economical alternative to trailing pansies
- Versatile – perfect for packs, pots, baskets and mixed containers
- 9 bright colours
